Russian - C1

SUMMARY

Full-stack Developer specializing in JavaScript, React & Node.js. I build fast, user-centric web apps with clean code and scalable architecture. 1+ year of hands-on experience crafting SPAs, integrating REST APIs, and solving real-world problems. Passionate about Agile development and efficient solutions that deliver impact.

PROJECT EXPERIENCE

Artistshub
Github repository
Technologies: HTML5, CSS3, JavaScript, Figma (for prototyping)
Role: Developer
- Built responsive landing page (mobile/tablet/desktop)
- Added CSS/JS animations and dynamic mobile menu
- Developed validated order form
- Ensured cross-browser compatibility
- Integrated basic backend functionality for form submission and data handling

My Portfolio Website
Github repository
Technologies: HTML, CSS, JavaScript
- Developed with Mobile First approach, featuring dark theme, smooth scroll, and scroll animations
- Implemented customizable colors and functional contact form with email sending
- Fully responsive across all devices with polished UI/UX design

WORK EXPERIENCE

Entrepreneur & Project Developer
Jan 2025 - Present

Self-Employed

- Independently developed and launched personal projects, covering full cycle from concept to implementation.
- Achievement: Successfully scaled 2 projects from idea to operational business with paying customers.

AF "MARKIVSKE"
Jan 2012 - Dec 2022

Chief Agronomist
- Introduced digital farming technologies, implementing precision agriculture tools (drones, soil sensors, and satellite monitoring) to optimize resource use.
- Achievement: Boosted production profitability by 20% through the integration of smart farming technologies.

EDUCATION

IT School GoIT
Dec. 2024 - Present

Fullstack Developer

YEVHEN SHYMKA

JUNIOR FULL STACK DEVELOPER (JAVASCRIPT, REACT, NODE.JS)

SUMMARY

Full-stack Developer specializing in JavaScript, React & Node.js. I build fast, user-centric web apps with clean code and scalable architecture. 1+ year of hands-on experience crafting SPAs, integrating REST APIs, and solving real-world problems. Passionate about Agile development and efficient solutions that deliver impact.

HARD SKILLS

- **HTMLFrontend:** HTML5, CSS3, SASS, JavaScript (ES6+), React.js, Redux, Handlebars
- **Backend:** Node.js, Express.js, REST API
- **Databases:** MongoDB, Mongoose
- **Tools:** Git, GitHub, Webpack, Parcel,Vite,Vue.js
- **Methodologies:** Agile/Scrum, Mobile-First, Responsive Design

PROJECT EXPERIENCE

Artistshub (Team Project) |Github   2025
- Contributed as a Frontend Developer, ensuring cross-browser compatibility.
- Tech Stack: HTML5, SASS, JavaScript, Parcel
- Key Achievement: Reduced build errors by 40% through CI/CD checks.

My_Portfolio_Website |Github   2025
- Developed a Mobile-First portfolio with dark theme, animations, and a functional contact form.
- Tech Stack: HTML5, SASS, JavaScript, Parcel
- Key Achievement: Improved performance by 30% via code optimization.

WORK EXPERIENCE

Entrepreneur & Project Developer   12/2024- Present
Self-Employed / Freelance

- Developed 2 commercial projects from scratch using MERN stack.
- Optimized APIs, reducing response time by 25%.

AF "MARKIVSKE"   5/2012- 10/2022
Chief Agronomist

- Introduced digital farming technologies, implementing precision agriculture tools (drones, soil sensors, and satellite monitoring) to optimize resource use.
- Achievement: Boosted production profitability by 20% through the integration of smart farming technologies.

EDUCATION

IT School GoIT   12/2024 - 09/2025
Fullstack developer

Luhansk National Agrarian University   9/2006- 09/2011
Master's in Agronomy

LANGUAGES

| German - B2 | English - A2 | Ukrainian - C2 | Russian - C1 |

Lebenslauf

Full-Stack-Entwickler (JavaScript/React/Node.js)

Persönliche Daten

Profil

Spezialisiert auf die Entwicklung leistungsstarker Webanwendungen mit cleanem Code und skalierbaren Architekturen. 1+ Jahr praktische Erfahrung in der Erstellung von Single-Page-Applications (SPA), Integration von REST-APIs und Lösung komplexer technischer Herausforderungen. Agile Methoden und effiziente Lösungen stehen im Fokus meiner Arbeit.

Kenntnisse und Fähigkeiten

Front-End: HTML5, CSS3, JavaScript, React

Back-End: Node.js, Express.js

API-Entwicklung: RESTful APIs

Datenbanken: MySQL, PostgreSQL, MongoDB

Weitere Technologien: TypeScript, Bootstrap, jQuery

Projekt Erfahrung

My_Portfolio_Website
GitHub-Repository
Technologien: HTML, CSS, JavaScript
- Entwickelt nach dem Mobile-First-Ansatz, mit Dark-Theme, sanftem Scrollen und Scroll-Animationen
- Implementierung anpassbarer Farben und funktionalem Kontaktformular mit E-Mail-Versand
- Vollständig responsiv auf allen Geräten mit ansprechendem UI/UX-Design

Artistshub
GitHub-Repository
Technologien: HTML5, CSS3, JavaScript, Figma (für Prototyping)
Rolle: Entwickler
- Erstellung einer responsiven Landingpage (Mobil/Tablet/Desktop)
- Hinzufügen von CSS/JS-Animationen und dynamischem mobilen Menü
- Entwicklung eines validierten Bestellformulars
- Sicherstellung der Browserkompatibilität
- Integration grundlegender Backend-Funktionalität für Formularübermittlung und Datenverarbeitung

Berufserfahrung

Jan. 2016 - Juni 2023

Leitender Agronom (Agroholding, 12000+ ha Ackerland)
AF "MARKIVSKE" Ukraine

- Steigerung der Flächenproduktivität um 12-15% durch Precision-Farming-Technologien
- Reduzierung der Betriebskosten um 8% via GPS-gesteuerter Aussaat/Düngung
- Einsparung von 20-25% Pflanzenschutzmitteln durch Drohnenmonitoring & variable Applikation
- Erhöhung der Erntequalität um 10% mittels Ertragskartierung & Datenanalyse
- Implementierung von Farm-Management-Software (Climate FieldView), die 30% Zeitersparnis bei Dokumentation brachte
- Schulung von 15+ Mitarbeitern in digitalen Agrartechnologien

Ausbildung

Okt. 2006- Juni 2011

Nationale Landwirtschaftliche Universität Luhanskt in der Ukraine
Schwerpunkte: Agrarwissenschaftler Spezialist.
Bachelorarbeit: "Optimierung der Effizienz landwirtschaftlicher Produktionsprozesse in mittelständischen Agrarunternehmen"

Weiterbildungskurse

Dec. 2024

IT Schule GoIT
Fullstack Entwickler
